About the Project

“EduStorytelling” (EST) aims at addressing the digital skills and literacy gap affecting European adults coming from disadvantaged backgrounds through the methodology of Digital Storytelling (DST) as a pathway to develop high-quality digital and literacy skills and competencies. It will improve attitudes of peer-interaction and cooperative learning, forming part of a comprehensive digital literacy in order to foster personal development, active citizenship and employability perspectives.

Updates and news on the project

During April and May of 2022 two Multiplier Events of Edu Storytelling project have been held in Sassari, Sardinia with the participation of adult educators and trainers and representatives of the general public of adult citizens, who had the chance to be introduced to the specific project and its contents.

The consortium during the last year had the chance to finalize all the Intellectual Outputs foreseen by the project; the IO1: “Curriculum on Digital Storytelling in Adult Education”; the IO2: “DigiStories Guide” and the IO3: “EduStorytelling MOOC Modules and Community”, The EduStorytelling MOOC stems from the IO1 contents. Project partners decided to implement this IO through the creation of 2 short video lessons per each module of the MOOC.

All the output have been presented during the Multiplier Events so that the participants got the chance to be introduced to the project actual results and understand what the main topics and objectives of them are.

Finally, the Joint Staff Trainin Event has been realized in Stintino in August 2021, 11 people were participating at the 6 days of activities. Objectives of the mobility was to explore the educational potential of DST as an innovative instrument for enhancing digital competences of EU citizens.

The mobility has been a great success, the participants showed enthusiasm and participated actively to each of the 6 day of Joint Staff.
